

### GERMANY SAVED BY DAWES PLAN. SAYS DR. JACKH

Praises Scheme as Life Insurance America Has Given His Nation

That the American Dawes scheme is the life insurance of Germany and the Locarno system the mutual life insurance of the European powers, was the statement made last Friday, by Professor Doctor Ernst Jackh in the Mercer Chapel before the International Relations Clubs of Mercer and Wesleyan.

Professor Jackh, who is the founder and president of the Institute of Political Sciences, Berlin, and was a member of the German Delegations in Versailles, Genoa, Locarno and Geneva, is in America upon the invitation of the Carnegie Endowment for International Peace. On his tour he will address the International Relations Clubs established by the Carnegie Endowment in the foremost colleges of this country.

"The Germany of today is the realization of the old forty-eighters and the new fourteen points of Woodrow Wilson. The basis of the German democracy is the universal, equal, direct and secret franchise of every man and woman, married or single, over twenty years of age," said Dr. Jackh.

**Germany all New**  
"The new Germany is no more a Greater Prussia, but a composite German organism, decentralized, neither unitary or federal, a steady republic. New men control a new machine," the professor declared.

"Hindenburg," said Dr. Jackh, "is like the American General Washington, first a general in war and then a leader in peace."

"The new leadership in Germany, gifted with vision and courage has to face three facts about Germany and concerning Europe," he declared.

"1—No other nation is as devoid of natural boundaries as Germany; open to all directions, never and nowhere protected and now even disarmed.

**Is Key-Nation**  
"2—No other nation has as many neighbors as Germany, namely fifteen, each single one of the larger ones superior to Germany by armaments and alliances.

"3—No other nation has her nationals so dispersed as Germany, among sixteen neighboring and adjoining states."

"Germany is the most internationally located nation of the world," declared Dr. Jackh. "This situation has created the political philosophy of the new Germany and of Europeanism, of inter-European independence and mutual cooperation. These are the underlying tendencies of the American Dawes scheme (the life insurance of Germany), the Locarno system (the mutual life insurance of the European powers), the League of Nations at Geneva, (the new international machinery), and the meeting of Thörry (the Franco-German rapprochement). So the hard way of Germany became a European highway and may become an international highway."

### SALTER ELECTED BY CICERONIANS

solved that a lawyer should not take advantage of technicalities in defending his client. Tom Whaley and Charles Cork took the affirmative; Waldo West and John Gilbert defended the negative. The decision was in favor of the negative.

George Barnes and Philip Lampke were admitted into the society. There were several able candidates for the office of janitor and the race was close. A recount of the vote was considered. The society voted that the successful candidate make a speech of appreciation to the society for electing him.

pensation for the miles of hobnobbing or other hardships undertaken.

"It's going to be a great game," declared Coach Moore during the week. "Georgia has a good team and so have we. If my boys will just play as they're able to, we'll win that game. But you never can tell!"

The tilt will largely decide the cage championship of the state. Mercer holds a win over the Petrels and Tech has defeated Georgia. A win over the Bulldogs Saturday night would put them out of the race entirely. The Bears will enter the game determined to win, and instead of "bringing home the bacon", it will be Bulldog steak this time!

### WMAZ TO START OPERATING SOON

Station in Tip-Top Condition; New Equipment Installed; Improvements Made

With the hum and buzz of the machinery all cut out, and the radio station in tip-top condition, Dr. Craig hopes to begin broadcasting from WMAZ in the near future. According to him, all of the "tin-pan" sound and the hum of the machinery which troubled Macon fans last year has been eliminated, new equipment installed, and many improvements made.

Dr. Craig states that work on the radio station has been carried on, chiefly at night, since the Christmas holidays. He has been assisted by George Rankin, city electrician, and Miller White, amateur radio fan of Macon, both of whom have volunteered their services during the past two weeks.

Tests have already been made of the individual parts of the equipment and Dr. Craig hopes to put on an inaugural program within a few days. Dr. Weaver has been asked to give the inaugural address and an entertaining program is anticipated.

### ANCIENT VETERAN STUDENTS FORM MUTUAL AID SOCIETY

(Continued from Page 1)  
Keeper of the Purse—Gene Cook.  
Daily Dozen Director—Jim Tom Bush.

Social Secretary—Bob Gilbert.  
Sponsor—Vera Amerson.  
Keeper of the Cuspidor—Waldo West.  
Feeder of Club's Stomachs—Lee Battle.

Retained Counsel—Ralph Eden.  
Fraters in Facultate:  
Dr. Newman, Dr. Harrison, Dr. Ragsdale.

Purpose: To exert a fatherly influence over younger students.  
Color: Silver threads among the gold.

Song: Darling, I Am Growing Old.  
Flower: Century Plant.  
Motto: Never too Old.

The following have been pledged and will be taken into the club when they have been here six years. The club is confident that they will be in the University at least that long.  
Alfred Pullen, John Binns, Hank Hall and Kay Tipton.

Texas University, by edict, limits her women to three social engagements a week, and the Stanford Daily thinks this violates "the fundamental purpose of an institution of higher learning." Be that as it may, the New Student confidently looks forward to the development by the edict of great ingenuity in Texas women. Mrs. Ferguson is a testimonial to the effect that the ingenuity of Texas women needs no development, take it as you may.

Two freshman representatives from each of the fraternities on the Georgia Tech campus shared a pig between halves of the football game between the Tech and Alabama men. The pig had been shaved and well groomed before it was turned loose. The freshman who caught the pig and held him for thirty seconds received a prize of a \$25 gold piece.—(Davidsonian).

### BRUNER ELECTED BY PHIDELTIAN

Will Preside at Society Day Exercises Coming Towards Latter Part of Month

Bill Bruner, of Laurens, S. C., by virtue of his election to president of the Phi Delta Literary Society at the meeting Monday night, will preside at Society Day exercises which will take place toward the latter part of this month.

The two literary societies alternate year by year in supplying the presiding officer for this occasion. Last year the Ciceronian Society president presided and the secretary of the Phi Delta recorded the meetings. This year the order will be reversed.

Other officers elected by the society were: Charlie Wallace, Waynesboro, vice-president; Tom Cobb, Tifton, critic; Rayford Trippe, Taylorville, censor; and Robert Ware, Hoganville, reporter.

Hal Cannon, basketball manager, announced that basketball practice would start Thursday afternoon at four o'clock on the court back of Tryon Hall.

The program as announced for the next meeting will be a speech by Bill King on the subject: "Sidney Lanier—the Poet and the Musician", and a debate: Resolved: That Mercer should have an Independent Board of Trustees". Bob Gunnels and Brodus Motes will be on the affirmative side and W. L. Dubberly and on the negative.
