

**PSHAW**  
By SHAW

Concerning the moves of fraternities.

In the fall when moving vans  
Vainly you attempt to dodge;  
When the frost is on the pumpkin,  
Try and find your lodge.

A person who has been absent from the campus for a number of years, and trying to find his fraternity house might get this answer. "Follow the moving van". And certainly this is practical advice. What with the A. T. O.'s Sigma Nu's, and Kappa Sigs evacuating their former houses of abode, there is need of some form of advice and quite a bit of explanation.

Why, oh why did they do it? That is the question. And why did not the others. That is also the question. Of course the A. L. K. A.'s, Pi K. A.'s and S. A. E.'s are justified in the position that they have taken. Who has not felt the call of the dope at five minutes to twelve, just fifteen minutes before Tatnall Square Banking company closes at twelve o'clock? And does there breathe a collegian so dead that he has never felt the ambition to get up at twenty minutes to nine and make an 8:30 class.

**Bleary Nu**  
But why should the Sigma Nu's leave their house and advance into the wilderness? Is there a chance that they wish to rattle the postman who is working on College street? Imagine his consternation when he finds that he has mixed up the Sigma Pi's and Sigma Nu's mail. Or what would a man returning from a dance think when he sees that he must enter one of the two houses. He sees two large Sigma's on two large lights, then the other Greek letters seem to blur, for what is a Nu or Pi to the sleepy, bleary eye.

**And The A. T. O's**  
Unhappy they lived, a trifle surly,  
Till they moved to College street,  
Took a house on College street.  
That they might wave at each passing girly.

The Kappa Sigs are working on the theory that heaven is not reached by a single bound. They seem quite contented with the two-story house they have moved into. If they gain a story a year, the Mercer Kappa Sig of tomorrow will each keep a parachute strapped to his back for use when he is in a hurry.

Oh for a new-made hospital  
Rising upward to the sky  
And a little house beside it  
And sweet nurses passing by.  
Give me then just such a structure  
That goes searching for the skies  
And a frat house down beside it  
And I'll move the Pi Kappa Phis.

Presenting . . . .

**CHARLIE CHAPLIN**

*in the blindfold cigarette test*

**Famous star selects OLD GOLD**

"One cigarette of the four I smoked in the blindfold test was like shooting a scene successfully after a whole series of failures. It just 'clicked' and I named it as my choice. It was OLD GOLD. Which clears up a mystery, for the supply of OLD GOLDS in my Beverly Hills home is constantly being depleted. It seems that Strongheart and Rin-tin-tin are the only motion picture stars who don't smoke them."

*Charlie Chaplin*

Made from the heart-leaves of the tobacco plant

MR. CHAPLIN was asked to smoke each of the four leading brands, clearing his taste with coffee between smokes. Only one question was asked: "Which one do you like the best?"

CHARLIE CHAPLIN  
... movie favorite the world over,  
in one of his best-loved pictures  
—"The Circus."

**How does OLD GOLD do it?**

What's the secret of OLD GOLD'S winning charm? The answer is very simple. Three types of leaves grow on the tobacco plant . . . coarse, heavy top-leaves, irritating to the throat . . . withered ground-leaves, without taste or aroma . . . and the heart-

leaves, rich in cool and fragrant smoking qualities. These golden-ripe heart-leaves give OLD GOLDS their honey-like smoothness. That's why so many people choose them. And that's why you too can pick them . . . even in the dark.
