

**AN WRAY WILL QUIT POST; RESIGNATION TO BE EFFECTIVE IN JUNE**

(Continued from Page 1)  
 cer as I have. Certainly I should regret to see the school of commerce abandoned as a separate school."

Dr. Dowell, when asked for a confirmation of Dean Wray's resignation, stated that he had not submitted one, and concerning the rumored plan for the elimination

of all deanships except of the liberal arts and the law school, made this statement:

"It's not a question of killing anything. We want to save what we can. The question now is as to how much cargo we can carry; what department affects the most students. We're going to save everything we can."

"Whatever we do, we would retain the best there was in commerce. It is a question of saving, not of killing. I think the fact

is that this is a time of general discontent. Everyone is worried by finances and knows something must be done.

"Whatever the board of trustees does, it will be in sympathy and appreciation of what we've got on the basis of what's the best educational practice and on the basis of what's in harmony with the best interest of the supporting denomination."

**ILLUSION:**

A "strong man" once gave public performances in which he stopped a 9 lb. cannon ball shot from a fully charged cannon. The audience gasped when the gun flashed and the human Gibraltar stepped forward out of the smoke uninjured, with the 9 lb. shot in his hands.

**EXPLANATION:**

The trick lay in the way an assistant prepared the cannon for the performance. He used the regulation amount of powder and wadding, but placed the greater part of the charge of powder *ahead* of the shot. The cannon ball was propelled only by the small charge *behind* it which was just sufficient to lob the 9 lb. ball over to the strong man.

It's fun to be fooled —  
 ...it's more fun to KNOW

A performance sometimes staged in cigarette advertising is the *illusion* that cigarettes are made easy on the throat by some special process of manufacture.

**EXPLANATION:** All cigarettes are made in almost exactly the same way. Manufacturing methods are

standard and used by all. A cigarette is only as good as the *tobacco* it contains.

It is a fact, well known by leaf tobacco experts, that **Camels** are made from finer, **MORE EXPENSIVE** tobaccos than any other popular brand.

In costly tobaccos you will find mildness, good taste, throat-ease.

Smoke Camels *critically*, and give your taste a chance to appreciate the greater pleasure and satisfaction offered by the more expensive tobaccos. Other cigarettes, we believe, will taste flat and insipid to you forever after.
