

MOTHERS, FATHERS ATTEND PARENTS' DAY FESTIVITIES FRIDAY

(Continued from Page 1)

at Mercer, being a combination of the Fathers' Day and Mothers' Day usually celebrated in the spring quarter. Last year at Mothers' Day, Mrs. Newton Thompson, of Madison, delivered the main address. After the luncheon a big field day was held in the stadium, Bob Lee, Nat Reaser, and Gerald McQuaig winning nearly every event.

The complete program for the day follows:

10:30 A. M.
Mercer Chapel, Dr. Spright Dowell, presiding.

Invocation—Dr. John C. Harrison.

Special Music—Dr. Burt P. Richardson, in charge.

Welcome from Student Body—The boys, T. W. Callaway, presi-

dent; the girls, Lelia Smith, co-ed president.

Response—Mrs. W. J. Neel, Bessie Tift, Forsyth, state president Mercer Woman's Auxiliary.

Address—Dr. L. A. Henderson, Columbus, Ga. Subject: The Centennial of Mercer from the Viewpoint of a Father.

Special Music—Dr. Burt P. Richardson.

Address—Mrs. Homer R. McClatchey, Columbus, presented by Mrs. Neel. Subject: The Centennial of Mercer From The Viewpoint of a Mother.

Benediction—Dr. John G. Harrison.

1:00 P. M.
Lunch, University dining hall.

2:30-5:00 P. M.
Field day exercises, Centennial Stadium.

5:00 P. M.

Reception for the parents and students, University library. Presentation of late Dr. Forrester's library to Mercer University.

Dr. Henderson To Speak

Dr. William H. Knight, pastor of the Tabernacle church of Atlanta, was expected to deliver the main address of the day, but was taken seriously ill last week, and is now in an Atlanta hospital. Dr. L. A. Henderson, of Columbus, consented to speak in his place.

Friday morning will be filled with visitations and conferences by the parents with the students and professors. Also during the day the Mercer Women's Auxiliary will hold their annual meetings, and the election of state officers for the ensuing year will be held.

The Board of Trustees of the University will hold an important session Friday night to discuss the budget, faculty for 1933-34, and the elimination or continuation of the School of Commerce.

The country needs something that will broaden the mind without flattening the pocketbook.

MERCER SONGSTERS ON FIVE DAY TRIP

(Continued from Page 1)

skit is furnished by Minter and Goldwire. Two new features are included on this new program. Charlie Thompson, freshman star of the club, presents a group of piano solos. The "Mills' Brothers" quartet, a new and distinctive novelty for glee clubs, features Billy Grimes, bass, Jack Dawson, tenor, John Minter, trumpet, and Mike Goldwire, trombone. A second quartet is composed of Jack Dawson, James Lawson, Harris Duke, and Billy Grimes.

The orchestra has a separate part of the program, playing the latest in popular music, with a symphonic jazz arrangement of one of Rubinstein's classic melodies. Another number well received is the three muted trumpet solos of "I Love You Truly," as played by Benton, Lawson, and Davins.

PREXY'S PARAGRAPHS

(Continued on Page 4)

monument to those high qualities of culture and of character which were so finely personified by Dr. Forrester.

With the benediction of such a life and with the parting blessing that Mrs. Forrester brings from him to Mercer today, ought we not, and do we not catch the true meaning of the Mercer spirit, the spirit that we must exalt and exemplify in building the Mercer of our dreams, the Mercer that our grand-children will celebrate one hundred years from now?

SPRIGT DOWELL,
President.

Why is the Stem removed from the tobaccos used in Chesterfield?

That's a very simple question to answer. The stem in a tobacco leaf, like the stem in most other plants, is "woody". It hasn't any of the flavor or the aroma that you want when you smoke. And it doesn't burn right.

So after tobacco has been properly aged, one of the first things to do is to remove the stems.

But what has this to do with your enjoyment of Chesterfield cigarettes? Just this. It means that we start right when we make Chesterfield—the right kind of leaf with the stem removed, the right manufacture—everything that science knows that can make CHESTERFIELD a milder cigarette, a cigarette that tastes better.

That's why people say "They Satisfy."

Tobacco used to be stemmed by hand—Now able machines stem 14,500 leaves every hour
