

OSTROM GIVES PLANS FOR REHABILITATION OF MERCER BAND

(Continued from Page 1) band to travel out of state games.

During the winter, between football and baseball seasons, he wants the band to play a series of Sunday afternoon concerts in the park or elsewhere for the public. He is going to arrange also with

Mr. Rigdon to have the band broadcast over WMAZ at regular intervals.

In the spring Mr. Ostrom hopes to have the band able to be presented in a formal concert at the Auditorium. He is planning to work toward this all the year as his goal.

Aside from all these plans the band will, of course, play for all activities at Mercer, and if possible, the new di-

rector would like to take the band on a concert tour through Georgia and adjoining states.

Idle talk is dangerous when it starts to work.

ILLUSION:

Look at this remarkable lady... with three lovely and perfect heads... all attached to a normal body. She appears to sit on the stage, with the lower part of her body concealed by flowers. She can wink, smile, and nod. She can talk, laugh, and sing—all at the same time. Thousands of people have seen this feat of magic and pronounced it a wonderful sight!

EXPLANATION:

Audiences used to pay an extra fee to go behind the scenes to see how this trick was worked. They discovered that the three-headed woman was merely a reflection in a mirror. The glass showed the heads of three girls but the body of only one. The other two were cleverly hidden so that only their heads showed in the mirror.

It's fun to be fooled —
...it's more fun to KNOW

This "three-headed woman" trick goes way back to the early days of magic.

Also old is the suggestion that protection for your throat and freedom from coughing can be achieved through some magic trick.

THE EXPLANATION: The easiest cigarette on your throat is the cigarette that is made from the choicest, ripe tobaccos. Cheap, raw tobaccos are, as you would naturally expect, harsh to the

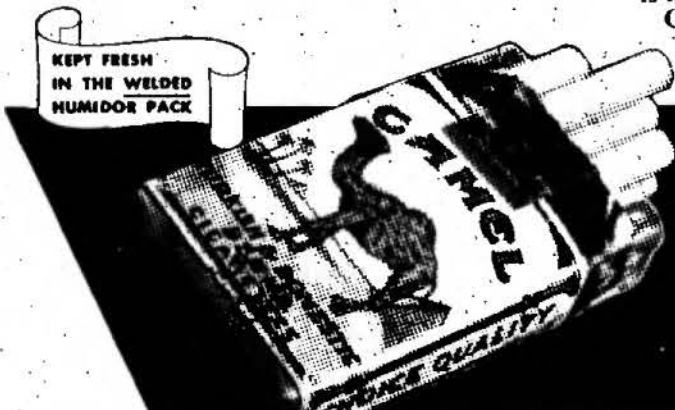

throat. Ripe, costly tobaccos are mild, mellow—gentle. The question is whether a cigarette is made from cheap tobacco or the more expensive grades.

It is a fact, well known by leaf tobacco experts, that **Camels are made from finer, MORE EXPENSIVE tobaccos than any other popular brand.**

American men and women have smoked more billions of Camels than any other brand because of the appeal of more expensive tobaccos and matchless blending.

Won't you stack up your own experience with a cigarette made from milder, costlier tobaccos... against magic claims about "cigarettes and your throat"?

Try fresh Camels—in the air-light, welded Humidor Pack that seals the freshness and coolness, the mildness and flavor of Camels... inside.
