GEORGIA BASIC LAW HAMPERS PROGRESS, SAYS ORVILLE PARK

(Continued from Page 1)
no longer seriously considered as the basic law.

Mr. Parks thinks that it is possible to remedy the situation by constructive amendment of the constitution, citing Virginia as an example of a state successful with this procedure. As the document is now amended, according to the

speaker, little attention is focused on the implications of changes, resulting in a confusion and ambiguous basic law.

Ever smoke "whittle" tobacco?

Well... here it is... already whittled FOR you. Granger Rough Cut is tobacco whittled right... that's one reason why it burns so slow and cool.

WHEN we started to make Granger Rough Cut we knew that fine tobacco burnt hot because it burnt so fast. It kept your pipe hot. You could hardly hold your pipe in your hand, it got so hot at times.

Then we remembered that some folks back yonder used to "whittle" their tobacco. So we made GRANGER just like "whittle" tobacco — "Rough Cut." It smokes cooler and lasts a lot longer. And also, you'll find it never gums the pipe.

So far, so good. Now we wanted to sell this tobacco for 10c. Good tobacco—right process—cut right. It was a question of how to do it for the price.

So we put GRANGER in a sensible soft foil pouch instead of an expensive package, knowing that a man can't smoke a package. We gave smokers this good GRANGER tobacco in a common-sense pouch for 10c.

GRANGER has not been on sale very long, but it has grown to be a popular smoke. And there is this much about it—we have yet to know of a man who started to smoke it, who didn't keep on. Folks seem to like it.
