

RAMBLIN

By Roy Rhodeniser, Jr.

Greetings, to one and all! Here we are again this time under a different title. First we would like to make a statement in regards to this column. Someone, somewhere, once said, "Variety is the spice of life," and if this is true this column will be the spice of life at Mercer. Variety will be the aim, motto, policy, and what have you, of this column. We want it understood, however, that this is not a dirt column, because we admit our inability to compete with the GREAT ZILCH.

As the football team entrained for New York last Thursday morning, we happened to be present and noticed the Freshmen, who were loudly bidding the team "Au revoir" or "Bon voyage" or something. There were two Macon boys (or should I have said Freshmen?) in the crowd. What's wrong with the Freshmen from the center of Georgia? Do they think they are superior to the boys who live on the campus? The Macon students in the Freshman class greatly outnumber the other Freshmen, and yet they had a minority representation at the train. This column would like to make a direct appeal to the Macon students, especially the Freshmen, to take part in such campus activities as this. You will not regret it, because after you have been in college three or four years, you will realize that you have not had your full share of enjoyment of "colleitch" life if you failed to take part in such gatherings as the one we have mentioned.

Among those present at the train were several co-eds, and among them were several of the local gals. Say boys are you gona let these gals have a better time at deah ole Mercer than you?

The team will be leaving in a few days for Baltimore up thar in Maryland. If you really want to do the right thing by yourself and your almy mammy you will be there to bid them "auf viderson."

Did you know: That Dr. Dowell once played semi-pro baseball? That Dean John B. Clark once coached football and basketball? That Dr. Jones is a tennis enthusiast and plays the game very well? That Coach Lake F. Russell was a captain in the infantry of the United States army at the age of 18? That Alfred Davino attended West Point before coming to Mercer? That Jonnie Cimperman is a swell golfer? That committees are already at work to make the Georgia-Mercer game the biggest home coming in the history of the Institution?

This column would like to congratulate Thad Murphey, of the Macon Murpheys, on his election as business manager of the Cauldron. Its gona be a hard job Thad, but you can make it a grand success.

If you have any questions you want answered just address them to this column in care of the Cluster. Here's a few we received this week:

Dear Roy, "Can you give me a good tongue twister, I want to try it on a certain Freshman?" Ites Afrosch.

Dear Ites Afrosch, Here's a good one, "The sea ceaseth and sufficeth us."

Say Roy, "Can there be any sweeter words than I love you?" Tappy Oca.

Dear Tappy Oca, "Not Guilty" isn't very bad on the eardrums.

Dear Ramblin', "Who was the last guy to box John L. Sullivan?" Ima Paine.

Dear Ima Paine, The undertaker.

We will conclude this week's column with our own short short story:

In the dusky fragrance of the beautiful Chinese garden, the figure of the man stole up to the waiting girl under the bower of roses.

"Come with me," he whispered, "it is late."
 "No, no, go away!" She answered fiercely. "It is Wong."
 "It is not Wong," insisted the man. "It is I, Sing Low."
 The girl wavered as she tried to pierce the inky perfumed darkness which surrounded them. Failing to do this she stretched forth a dainty hand and stroked his queue.
 "Ah," she sighed then, "it is you," and she was satisfied because she knew it wasn't Wong.

Picking teachers is something like picking wives. It would be hard to find any two men to agree on the qualities to be sought in either.—Dean Harry N. Irwin.

Possibly the silliest sophistry with which we have deluded ourselves is that, struggle between species being the order in nature, war is inevitable and natural.—Alexander Ruthven, president of the University of Michigan.

These days, smokers pay more attention to their cigarettes. Naturally they're talking about the way Luckies are made. Always so round, so firm and fully packed. Brimful of the choicest Turkish and Domestic tobaccos—without loose ends. That's why Luckies draw easily, burn evenly and are so mild—so smooth.
