

# DIRT

By HOMER ZILCH

I'm signing off, Tom and Julia. Now that your'e g-a-g-a again, I feel that my mission is fulfilled. But lets lay off these little quarrels in the future. But I don't think you ought to get out in the public eye to do your mooning. F'rinstance, the chemistry steps at night are much better than the co-op in the daytime—The Dempsey certainly received its share of patronage from the Mercer boys during the week-end. Ask Paul Ward what he was doing in room 222, and who did he see next to him when he woke up Saturday morning.——And what crowd of out-of-town girls and Mercer boys were raising he—— on the fifth floor at four o'clock in the morning?——I think the Pan-Hellenic council deserves a pat on the back for having the dances at the Dempsey. It saves the trouble of getting an automobile to do your'????? Nat Reesor has taken up where Cotton left off in the matter of giving all of the 14 year old girls a rush.——Its easy to fool the young ones isn't it Nat? Speaking of Harrison, ask him why he couldn't go to the A. L. T. banquet Friday night.——And the co-eds are going to blacklist Overby for making McClellan cry the other day. I haven't been able to find out what he said yet.——I wonder why "Toots" has been speaking to me so nicely of late. Want to get your name in my column, Toots?——And freshman Red Burch is really that way about Connie Kline, but so are lots of other frosh Red, but don't get discouraged. I know you are too bashful to tell her, so maybe this will put her wise.——And Searcy Garrison, the big B. S. U. man from Ochlocknee, has been spending quite a little time around Miss Croom's doorstep lately. And did you see Searcy poke out that chest when he was walking in the stadium with her. She was a sponsor you know, but I'll bet a thin dime that Searcy didn't buy the flowers.——And some freshman is about to beat Bill Hatfield's time with M. B. Hyde. These freshmen are trouble with the women, Bill.——And Uncle Homer would like to know the names of the two girls who live in the apartments next to the A. T. O. house. Some of the Alpha Tau's are getting worried because they can't get started in that direction. Ask London how much she enjoys her psychology class. She's studying human nature so she can hook Gordon Reddick. But if you had seen Gordon with that 16 year old last week-end, you'd give up, London.——He was really going to war!——And have you noticed the large number of co-eds at the Home-coming dances? That's a good sign that the pulchritude of that section of the student body is picking up.—— Things I would like to see

Tom and Julia married. (Won't Tom, Jr. be cute?)  
Gordon Reddick with that rich girl he is looking for.  
Sorority houses, so it would be easy to find a girl when you want her.  
More and better dances for the Mercer students.  
Repeat! And a bar in the co-op.  
Overby the proud father of 15 girls.  
And a helluva lot of other things that I can't tell you, you dopes.  
What Bear was afraid of what Bulldog?

S'long,  
HOMER.

the convention, together. The convention is to be held November 3rd through 5th and will bring together representatives from all Baptist Student Unions and sources of student activity over the state. It was reported that great progress has been made in preparing the B. S. U. room for its formal opening which can be expected within the next week or two. Doris Jacob and John Clark have been very active in this work and their efforts are fast being rewarded. Dr. J. P. Boone, Tuscaloosa, Ala., former state secretary of the B. S. U. for Texas, and active in B. S. U. work at Baylor while attending that institution, spoke at a meeting sponsored by the Mercer B. S. U. Wednesday afternoon at 3 o'clock. Garrison announced that the weekly meetings would be held from now on at 10:30 every Tuesday morning, and the entire student body of Mercer is cordially invited.

but the president says he will fight to the last ditch. The University of Louisville, according to the Crimson-White, is the fourth school in the country to install "Krexit." This is a machine which, when fed with examination papers, marks the correct answers and figures the total grade merely upon pressing a lever. The first drawback we think of is that you couldn't buy the darn thing a dope every now and then. Demand is not synonymous with want or desire; demand expresses purchasing capacity.—Alonzo E. ### ABOUT THE GAME

It was Johnson who said "few things are impossible to diligence and skill." Ruskin defined success when he said, "if you want knowledge you must toil for it; if food you must toil for it; and if pleasure, you must toil for it; toil is the law." Take either definition of success. Either or both cover the Home-coming game. It is impossible for us to name all those who deserve some of the glory. However, we wish to say that it was so successful that all who did help will hold it as an unforgettable day in their college life at Mercer.

**More Trouble For Zilch**  
Just when we thought Uncle Homer Zilch had gotten "London's" financial affairs straightened in order for her to be eligible we hear bad news. On arriving in town from a week-end visit at home "London" calls us up to say that the potato patch was affected by the bacillus-Tubercinia.

**At Random**  
Didn't our sponsors look elegant at the game? We learned that the bears made in Japan were now namesakes. Sorry, Boys, I can't

she will be in a favorable light to repeat the championship of last year. Plans for the biggest Home-coming crowd in the history of the school are in progress. Thousands of old grads will trek back to the historic Furman campus to watch the Hurricane perform. tell you if you happen to be represented. Miss Elizabeth Colson, Savannah, was the lovely guest of Marian Thorpe for the week-end. "Bit" Newby, a co-ed of last year is the guest of "London" King. Hey, "Bit," glad to see you! Dot Hollingsworth, also a co-ed of last year came up for the game. The Co-ed Apartment has a 'phone enthusiast who answers it with "Right Fish and Meat Market." We think our Drum Major outstepped the Visiting Major.

It was the first time in many years that Mercer has had any festivity of this sort, and the large crowd that witnessed it is proof of its success. If every Home-coming increases in spirit and attraction as the past two years have done, there will not

be a school in the south that can offer a bigger inducement to the returning alumni and visitors to spend Home-coming at Mercer.

I keep coming back to that word "balanced" on the back of the Chesterfield package

YOU often hear the word balance—something is out of balance—top-heavy, not on an "even keel." What you read, "Chesterfield Cigarettes are a balanced blend," means that the right amounts of the right kinds of tobacco are welded together: that is, home-grown tobaccos, the right kind, the right quantity—are blended and cross-blended with tobaccos from Turkey and Greece.

When these tobaccos are balanced one against the other, then you have a mild cigarette. When they are in balance, then you have a better-tasting cigarette.

May we ask you to read again the statement on the back of the Chesterfield package? May we ask you to try Chesterfield?
