OUT WEST, WHERE MEN ARE MEN

At the University of Arizona the Pan-Hellenic association has made the ruling that first-year women must refuse dates on the grounds that girls just entering college are "not sufficiently mature to go places at night with men."

At the University of Minnesota a professor, after years of research has finally announced his findings. Says the professor, "The difference between a university and an in-

sane asylum is that you have to show improvement to get out of an asylum."

TURN ON THE HEAT!

"Amateur Night Promises Learned Tap Dancers, Harmonica Players, and, If Warm, Hawaiian Dancers"—Headline in Campus Chat of North Texas State Teachers College.

The University of Wisconsin has opened a night club on the University campus. The club has a regular floor show and a master of ceremonies. Yes there is a catch in it, because only 3.2 beer is sold, but the volume of sale of this beverage surpasses that of any of the local night clubs or taverns.

BASEBALL PLANS FOR SPRING FAIL

(Continued From Page One) popular sport in the past. A smaller number will take part in wrestling. The majority of the school will be entered in the tennis tournament, as in the past.

Tennis will be the only sport in which Mercer teams will engage those of other colleges. Games have been scheduled with other Georgia schools. Despite rumors to the contrary, there will be no freshman baseball club, although there is plenty of material.

Plans for a swimming team have been previously announced and a number of candidates are working out. Efforts will be made to stage an intramural track meet, as was done in previous years.

Scientists in the Harvard University (Cambridge, Mass.) biological laboratories have proven that different types of light striking the eyes of fish cause nerve secretions that make the protective color changes in fish.

Old Dormitory May Be Student Center

Former Domicile For Athletics Now Has No Tenants

Possibility that the old Peabody dormitory might be converted into a student activities building is rumored on the campus.

For many years the dormitory, one of the oldest structures on the campus, has housed Mercer's football and other athletic teams, but it was abandoned last fall when the athletes were moved into Sherwood. The building now stands empty. It was thought that the biology departments might be transferred down there, but no action has been attempted as yet.

Dr. C. K. Leith, famed University of Wisconsin (Madison) geologist, has been awarded the Penrose medal for outstanding geological work.

Gambling is wrong, according to 114 University of Washington (Seattle) students who took a psychology test, but only 33 of this number condemned "petting".

"Marriage and home" is the subject of a new course offered by the Wesley Foundation of the University of Texas (Austin).

Take a cigarette like CHESTERFIELD

You know I like that cigarette...

I like the way it tastes... there's plenty of taste there.

Chesterfield is mild, not strong... and that's another thing I like in a cigarette.

What's more, They Satisfy... and that's what I like a cigarette to do.

I get a lot of pleasure out of Chesterfield... you know I like that cigarette.
