

Frat Advisors

(Continued from page 1)

to the fact that they are both working for the same purpose in the long run.

Those Attending

Members of the fraternity advisory committee, hosts at the dinner, included Dr. R. E. Anthony, Mr. J. C. Shelbourne, Dr. Gordon Singleton, Dr. W. E. Forte, Dr. E. E. Overton, and Dr. Henry Rogers. The guests included Mrs. A. P. Montague, Reavis Sproull, Kappa Alpha; Preston MacElhenny, Alpha Lambda Tau; Harry Lichter, Alpha Epsilon; Bowie Gray, Sigma Alpha Epsilon; Paul Ward, Alpha Tau Omega; Tom Hardman, Phi Delta Theta; Frank Martin, Phi Kappa Phi; Jimmie Holmes, Sigma Pi; John Callaway, Pi Kappa Alpha; and Jack Gautier, Kappa Sigma.

Mercer Bears

(Continued from page 1)

ably round out the Bruin starting backfield.

Probable Starters

George Rosich and Walt Bryan will be at the flanks. Tyson and Altonen are likely tackle starters. Williamson and Dodd will be at the guard posts. Opie Gilbert, who played 60 minutes Saturday night will resume his duties in the center of the line.

Colorful Floats

(Continued from page 1)

car the A. T. O. conducted a mock funeral service for the "defected" team, even providing the coffin.

Under a grassy mound at the head of which was a cross the Presbyterians met their end on the float of the Theta Sigma Betas. As the Presbyterians had been "defected," hanged and buried, the Alpha Kappa sorority drove a chariot on to victory.

Decorated cars filled with members of other organizations and freshmen followed the floats and completed the homecoming parade.

Ihley and Fussell

(Continued from page 1)

turned over once. The other vehicle was not damaged.

According to Ihley, there were no witnesses of the accident, but motorists passing by carried Fussell to his home near McRae for an immediate medical examination. The two Eastman men, Ihley reports, were taken into custody by police. They were not injured.

Cute Co-Eds

(Continued from page 1)

was too mild. Why, he insists on calling Irma Willis "Temptation!" He even thought that was her name at first. Antonio cannot speak a word of English yet. He's taking Spanish to learn to speak English.

The Spanish students are rejoicing. The Cubans are strong gifts from Heaven—or some place—grades should improve in the Spanish class this quarter. Albert read—I should say muttered—a passage in his native language from one of the books and laughed and laughed. When translating, he said that the old man—could no see—putting his fingers on his eyes—but he hear—putting his fingers to his ears—whip the boy who lead him—he close his eyes—look for Heaven—he was drinking from the blind man's bottle—it must have been Bernard or something!

Frank says that he wants to be an electrical engineer. He intends to

go to Tech next year. Now he is taking math along with English, which he has studied previously at the University of Havana.

Modesto will no doubt be the "ladies' man" yet. Already he walks home with the "Harrison girls" after classes. His first expression to the writer was the fact that he liked American music very much. He even promised to teach me to do the Tango, or however they dance in Cuba—maybe I'm thinking about the Rhumba! Anyway! Watch him, girls, because he catches on to things very quickly. One co-ed was heard to say, "He's the cutest little thing, you know"—with the accent on know. See what Cuba is doing to us already! In another week we will be speaking Spanish as much as our new "studes" will English.

As yet no interview has been had with Armando, but our best wishes go to our Cuban students. We hope they enjoy their stay with us.

Student Guidance

(Continued from page 1)

the elementary phase of education, again upon the secondary, and still again upon the tertiary phase. Today our attention is directed primarily to education on the secondary level.

"Our first annual conference dealt with the question of articulation of the work of the secondary schools and the colleges. Our second annual session centered around the study of the curriculum, and today our topic is 'Student Guidance,' Dean Clark concluded.

Other speakers on the program

were: Dr. J. T. Wheeler, University of Georgia; Dr. W. O. Hampton, Georgia Southwestern College; Major Paul R. Anderson, Lanier High School for Boys; A. L. Davis, Superintendent of Schools, Ocella, Ga.; and A. J. Hargrove, Superintendent of School, Dublin, Ga.

Bears Seek

(Continued on page 4)

immortal "Phoney" Smith, have the Bears emerged victorious, although the two schools have enjoyed one of the closest rivalries in the south.

Coach Russell has led three games against the Carolina Baptists in three of the best defensive games local fans have ever witnessed. In 1932 they were defeated on the home grounds 2 to 0 when a blocked kick spoiled a scoreless tie. Mercer led in first downs that day with one to none for the invaders. The following year they were all even in points and first down with a 6 to 6 Furman win a very even match; 8 to score and 4 first downs each. Again last year a homecoming crowd saw 6. An aggregate score of the last three games shows a score of 17 to 9 with less than twenty first downs being evenly divided between the two teams.

This year Coach Dixie McLeod has added a fine array of backs to his usual stonewall defense to give the Purples one of their best teams. Mercer will be the under-dog Saturday.

After a rather slow start, the Bruins hit their stride against Birmingham-Southern and Presbyterian, and will line up for the opening

kick-off with a strong determination to win and gain revenge.

Pass in Review

Evolution of a Word

According to the "Student Prints," the Creator made Adam and called him man. As an afterthought he made the female of the species. On inspecting His new work He exclaimed, "Woe, man." (Whence Woman), and man has been wooing ever since.

Cameron
