Owen Reigns as Queen

SAE Wins Bear Day Float Prize

SEE STORY, PAGE THREE

THE USSR HAS NOT MOVED in on Dogpatch; (photo at top) but that is how it might appear to the uninitiated. Second-place winner in the Bear Day parade was the MFA float depicting Sadie Hawkins Day in America's typical community, Dogpatch. The float behind added the foreign effect. In the picture directly above Dinah-Cutter (left) and Jamie King help depict Easter for the ADPi float, which won third place.

Campus Election Set for April 12

SEE STORY, PAGE THREE

HOMECOMING QUEEN DIANE OWEN beams happily (center photo) from one of the three autos in the Bear Day parade carrying winners in the Homecoming court competition. In the photo at the left are (l to r) Barbara Senft and Connie Adams; the car full of beauties at right includes (l. to r) Jean McRay, Jo

Kidd, and Freda Cagly. These five were runners-up in the election for Homecoming Queen, and they made up the monarch's court. The name of the Queen was announced at the Inter-Fraternity Council dance last Friday night. She was chosen from the six finalists who received the top number of votes. The finalists

had been announced earlier. In the picture, Diane holds the dozen roses she received from Student Body President Joe Hendricks, who crowned her at the dance.

(Pictures on this page by staff photographer Jack S. Pate)

BEST HONORS AND SCORING marks went to the SAE float depicting Independence Day. The float, which was decorated with the flag, took four hours to construct and was the first to be completed. The float was decorated with the flag and the scroll for the 100th anniversary of the Declaration of Independence.
