The 300-page handbook for U. S. nationals gives other information valuable to the student who wants to study in a foreign land. There is a comprehensive listing of colleges and universities in 91 countries as well as the names and services of organizations willing to help the "exchange" find living quarters or meet new people in the community where he is studying. There are tips on selecting a school in another country, an explanation of degree and credit requirements of both U. S. and foreign educational systems, and an extensive bibliography in the field of international education. A special section covers summer study abroad.

This third edition of the IIE handbook has several new features, including a discussion of the new African nations and their educational systems, a listing and discussion of available foreign study programs for U. S. undergraduates, and many of the new scholarship programs launched in the last three years.

The price of the handbook is \$3.00 for each separate volume or \$5.00 for the set of two. The books can be purchased from the Institute of International Education, 1 East 67 Street in New York City or from its regional offices in Chicago, Denver, San Francisco, Houston and Washington, D. C.

Scholarship Book On Sale

The Handbook on International Study, a comprehensive guide listing international scholarships, has been published for the first time in two separate volumes by the Institute of International Education.

Entitled Handbook on International Study: For Foreign Nationals and Handbook on International Study: For U. S. Nationals the just released books are designed as sources of information for college and university personnel, student advisers, libraries and persons desiring data on all aspects of international scholarship programs.

The handbook, now in its third edition, is truly a "how-to" guide on international education with information ranging from where to study higher mathematics in Germany to child-welfare in the U.S.A. Both books not only list the awards and grants of major scholarship programs, but also state the requirements for these programs, describe American and foreign education, and discuss government regulations affecting the international student. The scholarship programs listed range from grants for the mature specialist to awards for the teenager.
